

Hva mener folk om vindkraft? Resultat fra tre forskningsprosjekt

Kristin Linnerud
Forsker CICERO og Professor HVL
Trondheim, 14.10.2019

°CICERO
Center for International
Climate Research

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no 764717. The sole responsibility for the content of this presentation lies with its author and in no way reflects the views of the European Union.

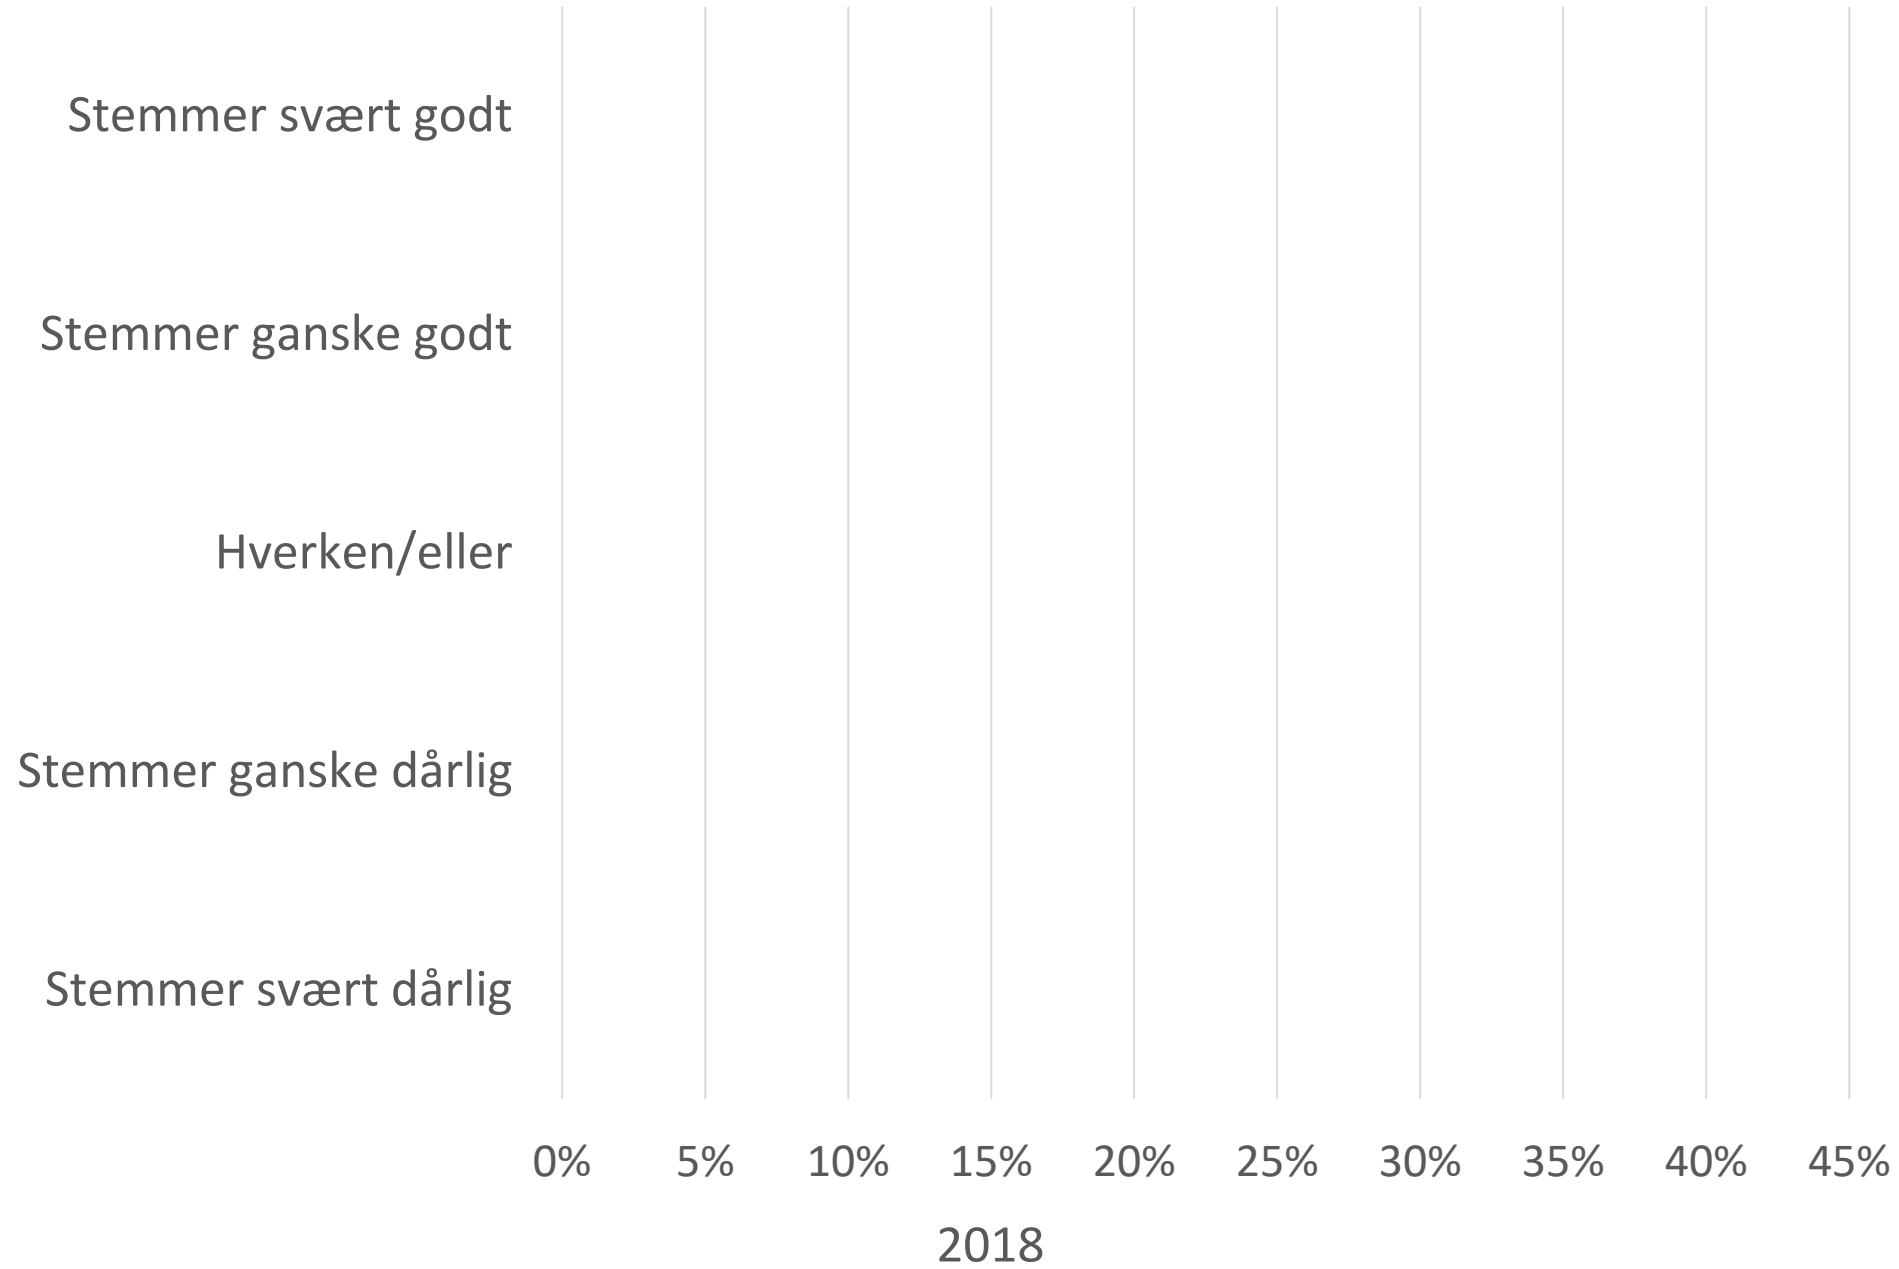

CICEROs årlige spørreundersøkelse om folks klimavaner.

Forskningsprosjektet ACT
Forskere: Marianne Aasen og Arild Vatn

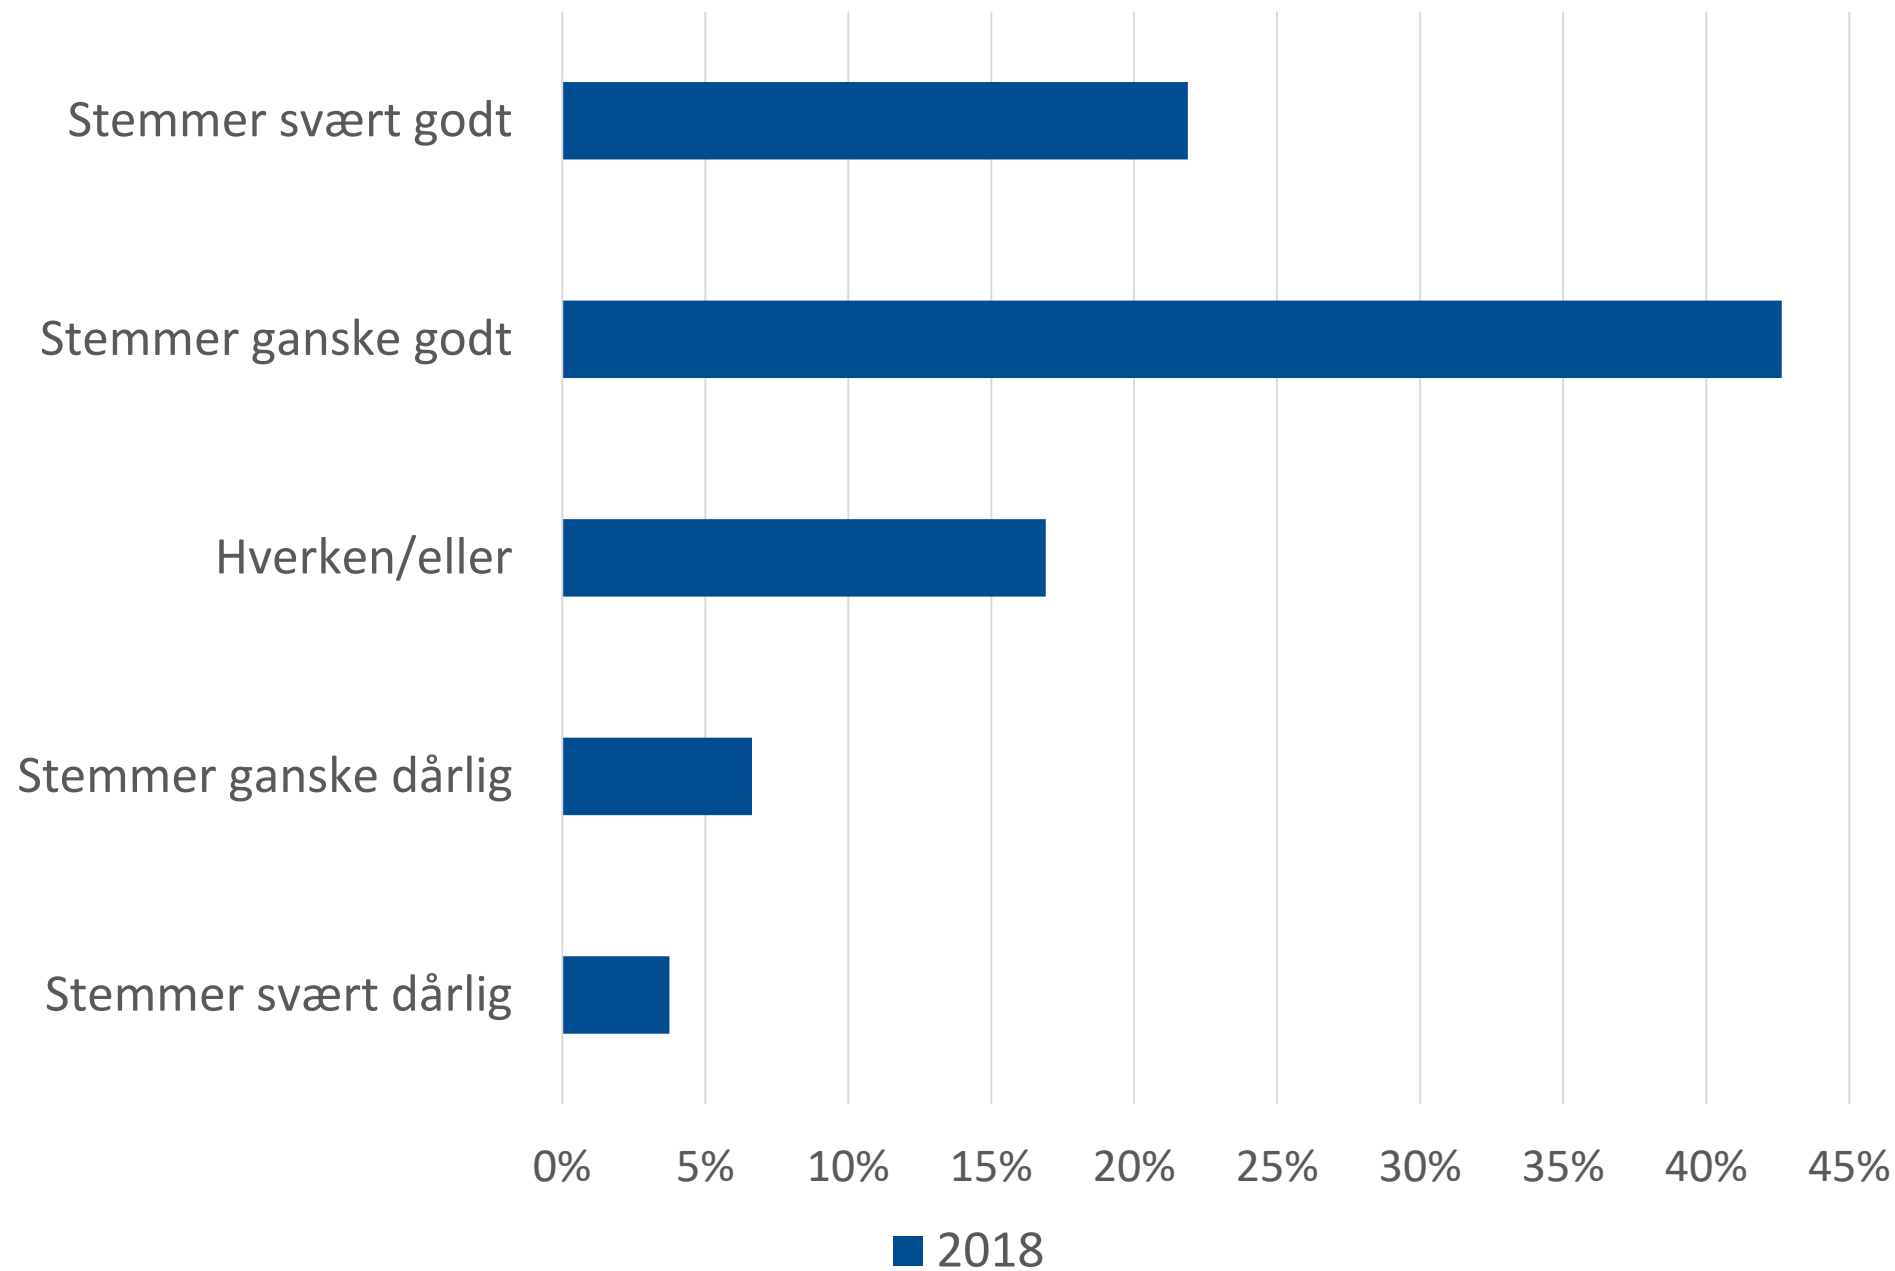

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no 764717. The sole responsibility for the content of this presentation lies with its author and in no way reflects the views of the European Union.

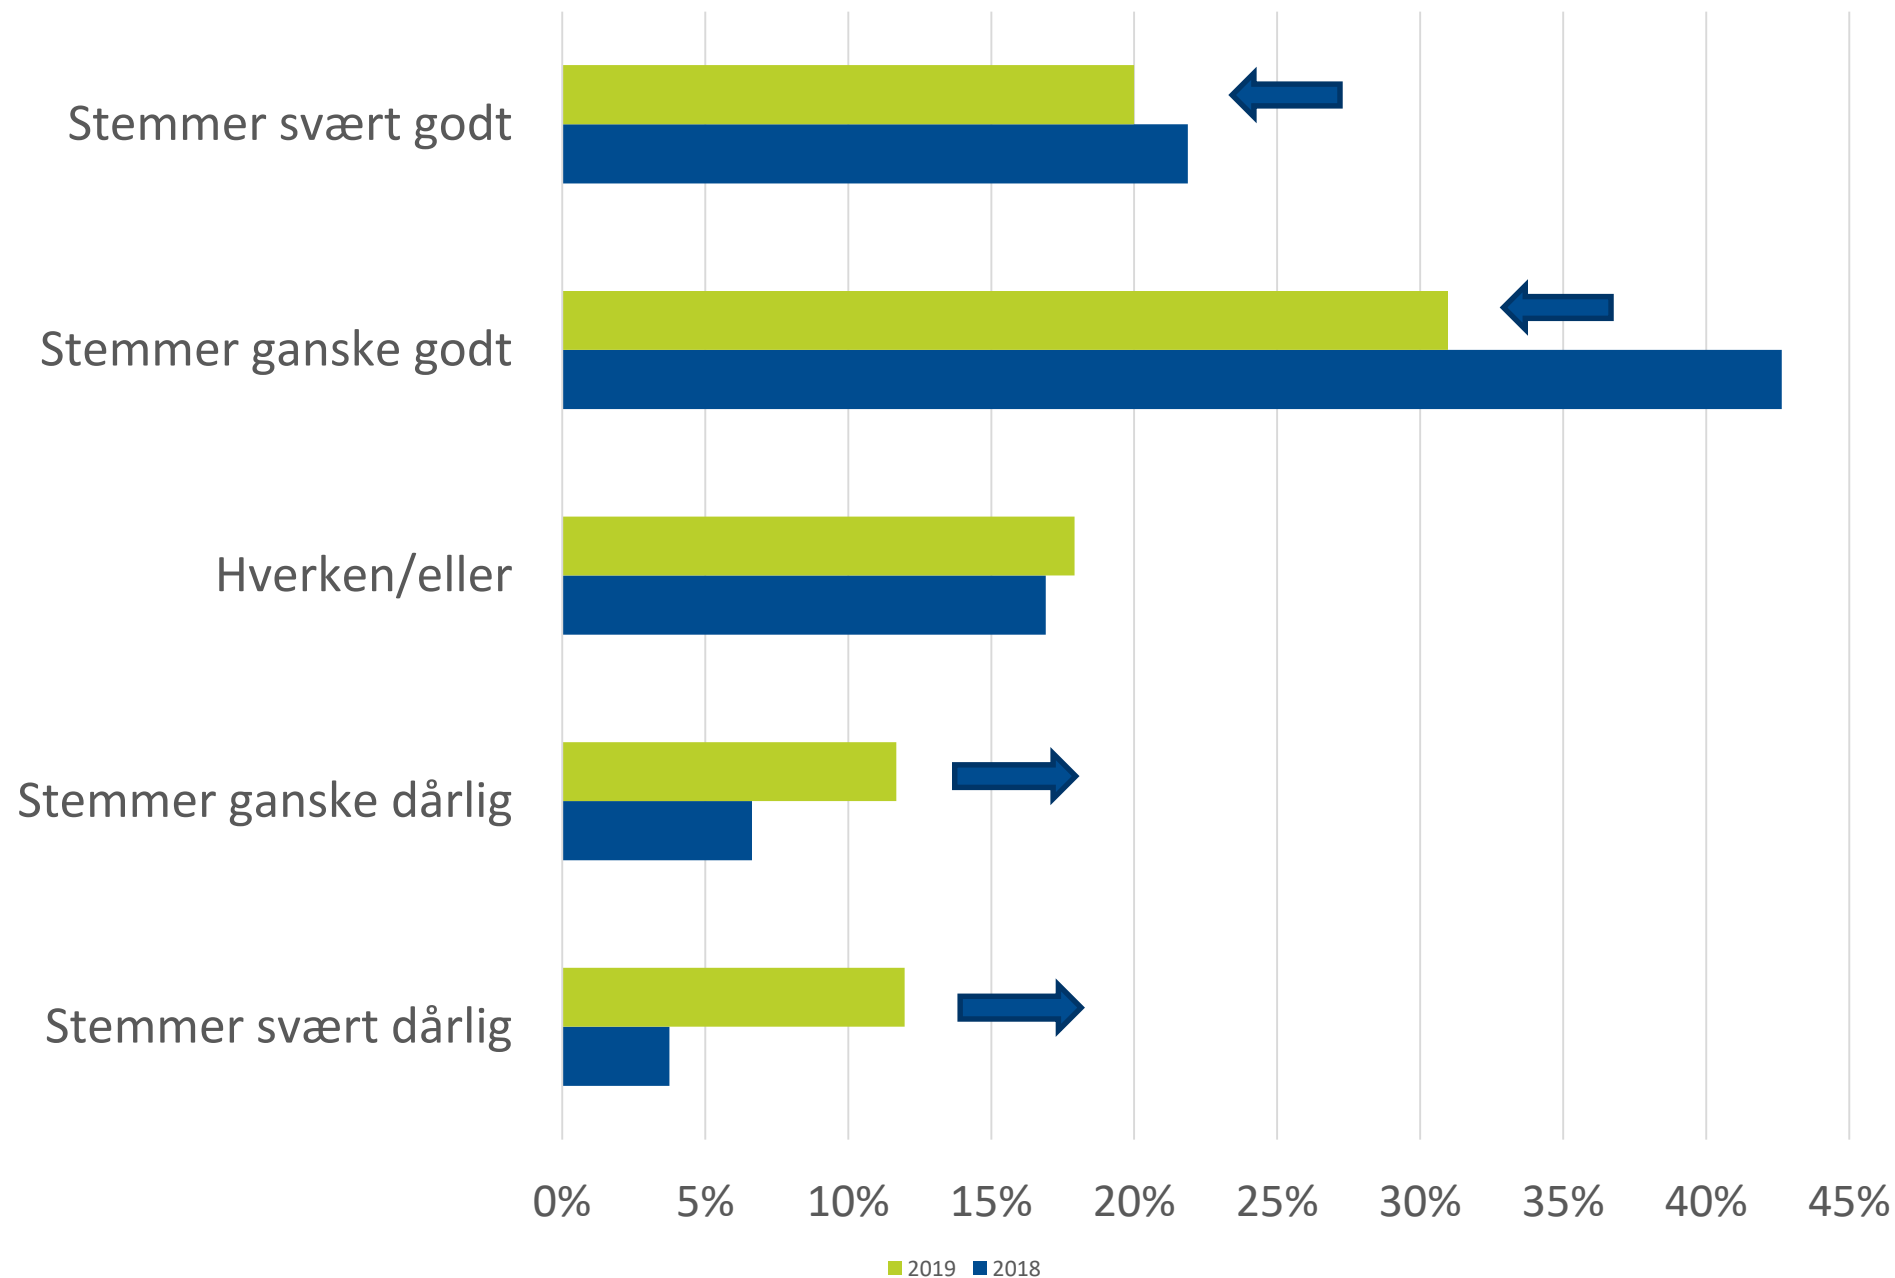

"Norge bør øke vindkraftproduksjonen på land"

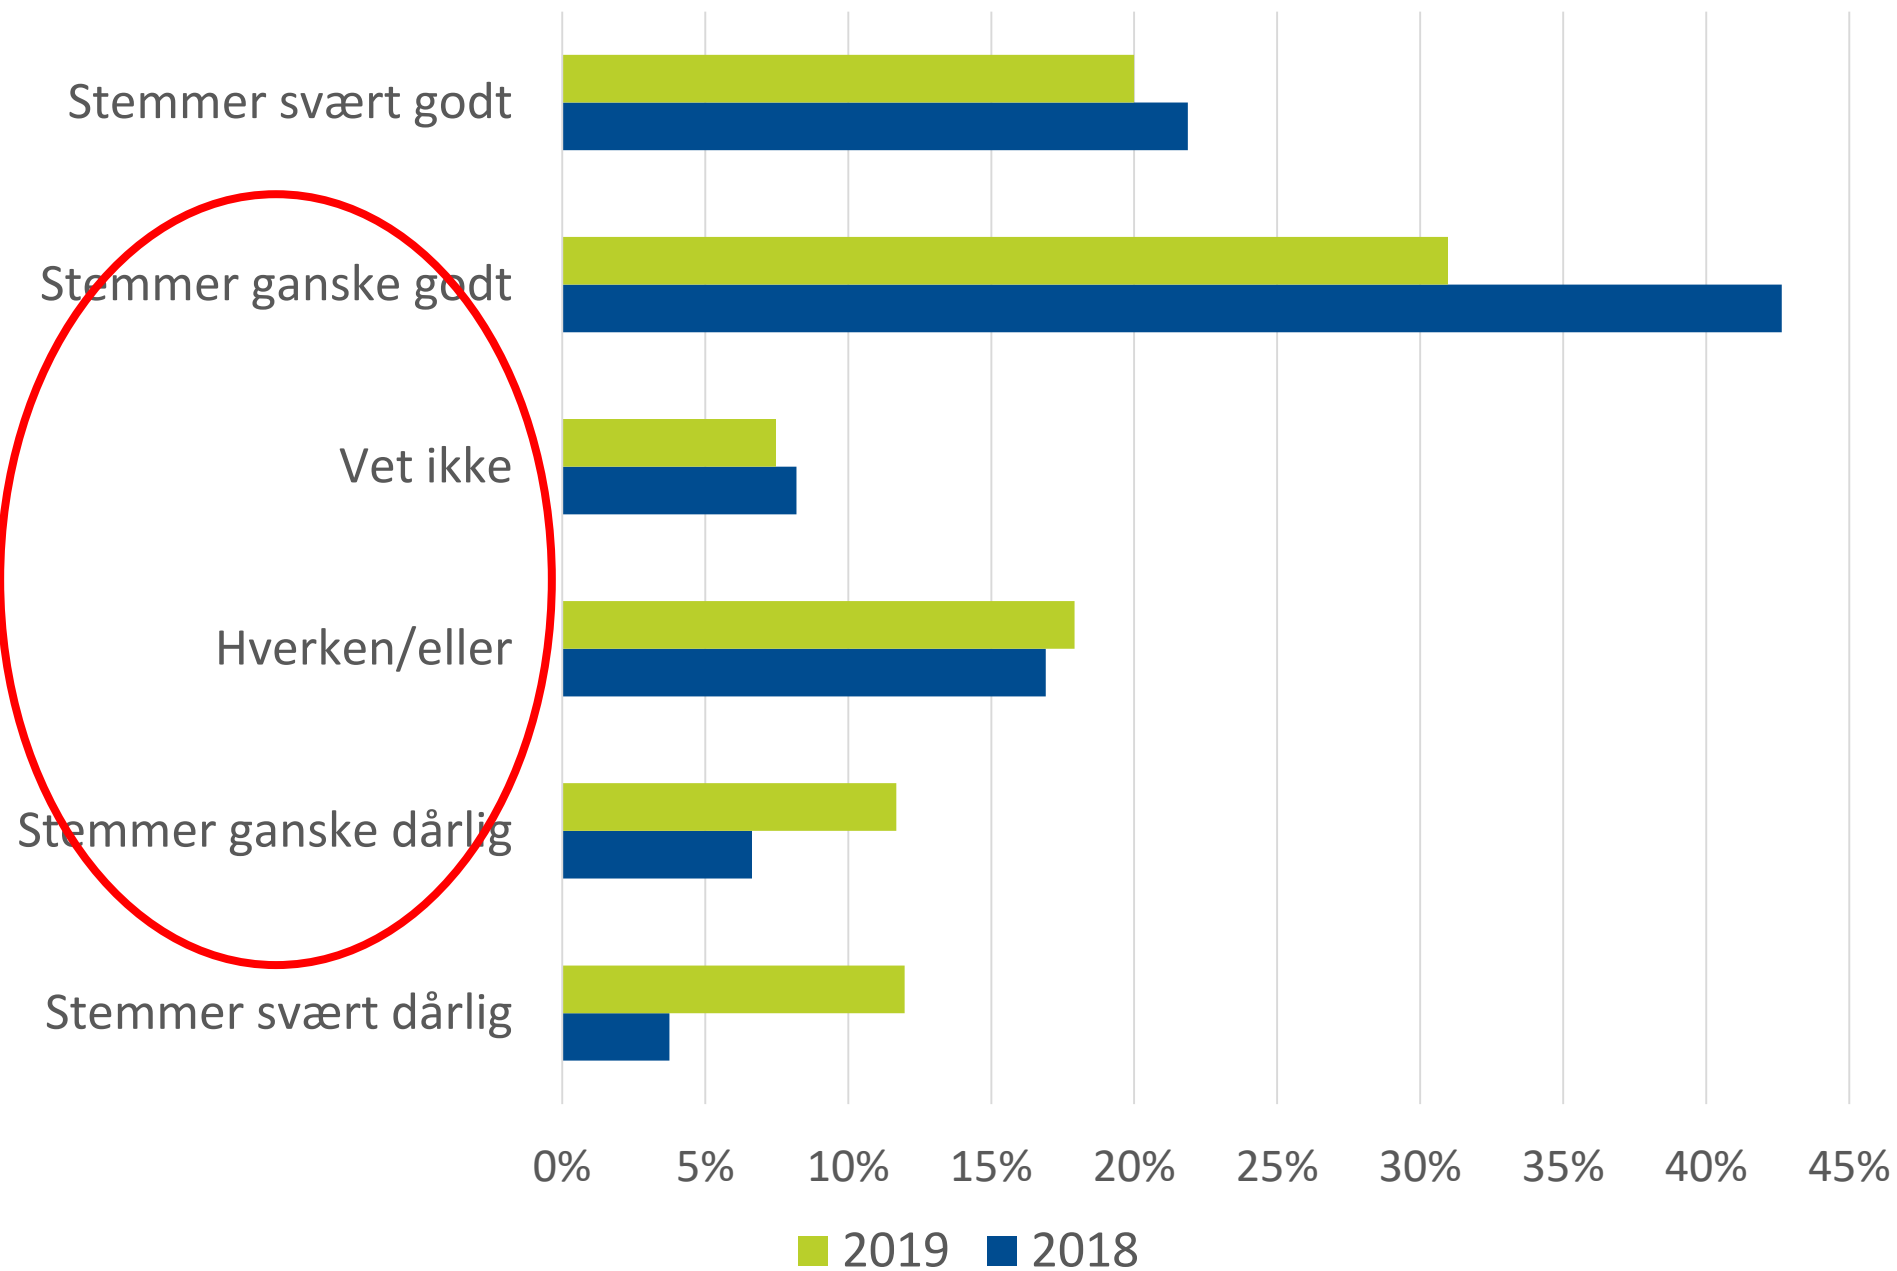

"Norge bør øke vindkraftproduksjonen på land"

"Norge bør øke vindkraftproduksjonen på land"

"Norge bør øke vindkraftproduksjonen på land"

Literature review social acceptance

Forskningsprosjektet WinWind

Forskere: Kristin Linnerud, Stine Aakre og Merethe Dotterud Leiren

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no 764717. The sole responsibility for the content of this presentation lies with its author and in no way reflects the views of the European Union.

Seks observasjoner

- Hvem du er og hvor du bor
- Rettferdighet
- Formål og eierskap
- Tilknytning til naturen og landskapet
- Verdiskapning, sysselsetting og priser
- Natur vs klima

- Sukre pillen?
- Vi kan alle bli vinnere?
- Kun sosial aksept?

Vindkraft og bærekraftig utvikling

Forskningsprosjektet RELEASE bl.a.

Forskere: K. Linnerud, E. Holden, D. Banister, G. Gilpin m.flere

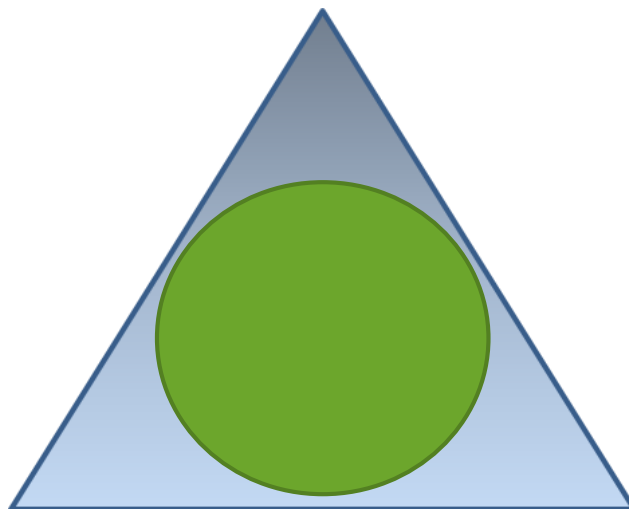

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no 764717. The sole responsibility for the content of this presentation lies with its author and in no way reflects the views of the European Union.

Bærekraft

Respektere miljøets grenser

1. Begrense klimaendringer
2. Sikre biosfærens integritet

Dekke menneskelige behov

5. Fjerne ekstrem fattigdom
6. Sikre muligheter ('capabilities')

Sikre sosial rettferdighet

3. Sikre bred deltagelse
4. Sikre rettferdig fordeling

The Imperatives of Sustainable Development

NEEDS, JUSTICE, LIMITS
